Why to Take this Course

The money of the IT sector is intellectual property. The copyright for the Harry Potter series has generated more than \$30 billion to date, and the worth of the world's leading computer firms' trademarked trademarks currently exceeds \$100 billion. But what is it about these intangible assets that make them so valuable?

You will understand the differences between various kinds of Indian intellectual property rights, such as patents, copyrights, and trademarks, and their many applications to human innovations through the course in this specialty.

What You Will Learn

- A.** Understand the basic legal framework governing
1. Patents
 2. Trademarks
 3. Brand names
 4. Domain Names
 5. Service Marks
 6. Industrial Designs
 7. Geographical Indications
 8. Copyrights & Plant Variety Rights in India
- B.** Obtain Trademarks, Designs, Patents, Copyrights in India; *file Trademark application under the International Madrid Protocol & TRIPS Agreement.*
